

FOR THE ENTIRE
BEECHCRAFT KING AIR
FAMILY

RAISBECK CROWN WING LOCKERS

Return the cabin to your passengers!

Improve the efficiency of your King Air with more space for storing luggage, business cargo and sports equipment, outside the cabin—keeping your cabin legal from aisle obstructions.

Simply more of what you bought your King Air for!

RAISBECK
ENGINEERING

RAISBECK CROWN WING LOCKERS

Available for all King Air Models — *OEM-standard on 350s*

In 2007, Raisbeck expanded its Locker capacity, adding three inches of additional height to the volume, allowing more room for luggage and business cargo, and giving operators more capacity for storing important articles outside the cabin.

BENEFITS

- Certified for 600 lbs total cargo in 17 cubic feet of space
- Returns the cabin to your passengers
- Handles skis, snowboards, golf bags and larger luggage
- Fully certified for FAR Part 135 commercial operations
- Makes room for additional passengers
- Saves on interior wear and tear
- Lock-and-key security

TECHNOLOGY

- Aerodynamically area-ruled to minimize drag
- Constructed of lightweight, infinite-life composites
- Fully self-contained to ensure a clean, dry interior
- Removable in minutes for airplane maintenance

Streamlined design reduces drag in flight.

Easy access allows you and your passengers additional storage for an uncluttered and more efficient cabin.

**SPECIAL
COMBINATION
PRICING**

Special Combination Pricing can save you \$7,000 to \$20,000 or more, when you purchase Crown Wing Lockers with one or more additional Raisbeck Performance Systems. Plus, you gain the benefits of both the Locker and greatly improved performance and productivity provided by the additional Systems.
